

# Freshpack<sup>+</sup> Plus™

RAP's Freshpack Plus™ packaging solution extends sandwich shelf life to P+5. The world's lightest sandwich cartonboard packaging, represents a critical breakthrough in fresh food packaging. Thanks to a unique packaging design, Freshpack Plus™ is proven to keep food fresher for longer, thereby reducing waste and saving money.

Extends  
Shelf Life by  
**25%**

Extended Shelf Life  
Endorsed by Leading Food Analyst:

- + The world's lightest sandwich cartonboard packaging
- + Extends shelf life to P+5
- + Retains the same freshness on P+4 as the existing pack at P+3. Proven that the sandwich gets a 'good rating' on P+5, depending on the ingredients
- + Reduces waste
- + Reduces transport costs
- + Runs on the same line as the existing Freshpack™
- + Fresh for longer
- + Made from lightweight, sustainable cartonboard and film laminate
- + Less carbon emissions
- + Advanced design enhancements that lets near zero airflow into the packaging
